Data Structures: Linked list implementation

Year 2 · Sample assignment · Due 2026-10-18 · 10 marks

Instructions

1. Attempt all questions.
2. Show all steps.
3. Submit before the due date.

Questions

1. Implement a singly linked list with insert at front, insert at end and delete by value.
2. Implement a doubly linked list and print it forwards and backwards.
3. Write a function to detect a cycle in a linked list.
4. Compare array and linked list for insertion in the middle.
